A few hints for writing papers

Marc Shapiro
Projet Regal
LIP6 & INRIA
What I look for

Precision
Depth
Relevance
Precision

Write for the reader
- Define problem
- Define terms
- Logical flow

Be definite
- Active voice
- Short sentences
- Positives
- Say it once
Depth & relevance

Focus

Explore the issues
- Leave no stone unturned
- Justify your design choices
- What have you learned?

Solve somebody's problem
- Measure impact
- Push the limits
- Operational zone

Real users: Internships
A few more tips

Publishing is hard work
- Question what you have done
- Focus, precision
- Iterate & improve
- Present elsewhere
- Do the US circuit

Time is the essence
- Start early

Rehearse!!!
